

NETWORK PATCH LEADS

Cat5e UTP Patch Leads - 350 MHz

The Category 5 enhanced UTP patch leads conform to the TIA/EIA-568-B specification. Patch leads are wired to the T568A pinout specification with tangle free latch down plugs and slimline injection molded boots in various colours and lengths.

T568A Cabling Pinout Specifications

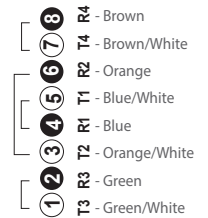

FEATURES

- Produced by an ISO9001 certified manufacturer
- 100% tested and channel certified by 3P, UL and ETL

TIA (T568A)

Cat6 UTP Patch Leads - 550 MHz

The Category 6 UTP patch leads conform to the TIA/EIA-568-B specification. Patch leads are wired to the T568A pinout specification. They are individually channel tested and are made with tangle free slimline injection molded boots in various colours and lengths.

T568A Cabling Pinout Specifications

FEATURES
